A lot of new participants this time: DK9HE, DL1DXL, DL1LAF, PA0JLS and PC4Y. Andy DK9HE joined the NTC just a few hours before the QSO party. Welcome to all!

As predicted by our forecast, 80 meter was the best band to use. However, there were some groundwave QSO's on 40 meters between PA stations. Also, 4O3RB was logged by PG4I and W8FJ by F6JOE.

Please submit a complete log if you can: date, time, reports, frequency, name and exchanged NTC numbers have to be included.
