## NTC Q P

### Results of the NTC QSO Party of February 2022

It was a rough week for some of us. In The Netherlands we had one storm after another, resulting in low activity from our country and no active Club Station because antennas were down for safety. 21 logs were received, results sorted by callsign:

Call	NTC#	QSOs	80m	40m	score	
F8DTU	49	3	-	3	4	
G4CPA	123	3	1	2	4	Twanger cootie
ON7DQ	98	13	13	-	26	Woody Cootie
PA7RA	1	14	14	-	25	Begali Intrepid

Congrats Jean F6JOE and Luc ON7DQ for the nice score! Unfortunately, 40 meters did not seem very good this time. There was a little confusion on the rules as some people mixed up the QSO party and Anniversary party. So I made this overview:

	Frequency	When	Length	Time
QSO Party	every month	Every third Thursday	1 hour	19-20 UTC
Anniversary Party	every year	January 31	2 hours	19-21 UTC

And the scoring is different, see: QSO party at <https://www.qsl.net/ntc/party.html> and Anniversary party at <https://www.qsl.net/ntc/anniversary.html>

Overview of points scored in our QSO party so far on the next page...
