NTCQP

Results of the NTC QSO Party – June 2022

There were some small errors in the results of May and people mailed me about it. An updated version is available at the NTCQP archive: <https://www.qsl.net/ntc/files/NTCQP/2022>
Not a single QSO on 80 meters this time. 239 QSOs were made amongst 24 participants, the majority on 40 meters with only 5 contacts on 20 meters.

Theo PA3HEN seems to be doing well in the standard section with our club call, he has a clear lead. Jean F6JOE is in second place even though he was not participating this time and Piotr SP7OGP is third. In the mechanical key section Luc ON7DQ is first place with his cootie key.

Thanks all for your participation!

NTC Q P

English Soapbox:

ON7DQ: First called CQ for 5 minutes on 20m but got no replies, then just chased all stations that were spotted on 40m and that kept me busy the whole hour, great fun! Also happy to work many new numbers. My key was my "Woody Cootie" which is still my favourite key.

PA0SIM: Using the new Vibroplex Original bug again. QRV only on 40m. On 80m and 20m no NTC sigs in the waterfall. But 40m was OK. After the party had a nice QSO with Eddi DJ6UX. He noticed a lot of PA activity HI.

Dutch Soapbox:

PA0CMU: Toch weer alleen op 40m en achteraf gezien had ik het met mijn QCX moeten doen. De signalen waren er hard genoeg voor. Toch maar weer de Elecraft K2 gebruikt, die communiceert beter met N1MM Logger+.

PA3DSB: Leuke QSO Party weer, goede condities en met I5ECW als nieuwkomer (#164). Voor mij waren alle QSO's nieuwe NTC leden dus een goede stap richting het Bronze award. Allemaal weer bedankt voor het geduld om mijn QRP signaaltje uit de ruis te pulken. Rig: FT817 en 10m EndFed.
