## NTC Q P

### Results of the NTC QSO Party of March 2022

Nice to see 40 meters open, nearly 50% of the QSOs were made on this band! 25 logs were received with 263 QSOs logged. 7 stations have been using a BUG or Cootie. Our club call PI4NTC was activated by Theo PA3HEN.

You may have noticed several EA stations were active on 40 meters. The EACW club is having a QSO party at the same time as the NTC. They send a report, name and EACW number. It is okay if you log them, but please check if they are member of NTC and adjust your points accordingly. Our member-list is at <https://www.qsl.net/ntc/ntc.txt>

I have gone through most of the logs, some people participate but don't send their results. No logs were received from DJ3TU, DR3I, G4RTJ, OK2BMA, ON3RLI, PA0CMU, PA0GJV, PA0HTT and PA3BYW. Even of you make just one or two contacts: logs are important to us, they tell us how popular the QSO party is.

Welcome to our new members Clemens HB9EWO and Andy G0LLX. Congrats to Theo PA3HEN for the high score with the Club Call :-). Rien PA7RA did very well in the Mechanical Key Section, see next page. The summary for this year is on page 3 and 4.

Here are the results sorted by callsign:

Call	NTC#	QSOs	80m	40m	score
DJ9BM	85	6	6	-	12
F6JOE	44	11	7	4	23
G0LLX	156	6	-	6	12
