

Results of the NTC QSO Party – September 2022

40 meters was buzzing with NTC stations again. In the months to come we should see some more activity on 80 meters. The number of participants was a bit low this time, we received 22 logs. 306 QSO's were made between stations with less participant as last month but with more contacts. Only one QSO on 20 meters and zero on 80. All logs were in Cabrillo or some other readable format, thanks!

English Soapbox:

Luc ON7DQ: The NTC QSO Party was again a lot of fun ... and WOW, a lot of CW activity on 40m! I used the same tactic as last time, first worked as many of the spotted stations as I could, then called CQ myself in the last half hour. I used my "Woody Cootie", the WX was not good for 'Gelatelli' Ice cream today, hi.

Jan PA0SIM: Could not use the Maasbree WebSDR. Local transmitting activities in Maasbree overloaded the 40m and 20m band. Had to listen on my own QTH with high noise levels. Conditions were good at 40m, most stations could still be copied.

Volker DJ9BM: Attached find my small log, first time done with UCX-Log. Again much fun on 40m with good condx. I was qrv after 5 months with no activity. Best 73 and cuagn in October at AGCW/NTC Party.

There is no Dutch soapbox this month.

Summaries for 2022 on the next 2 pages

As you can see on the next page there is a fierce competition going on for the first place in the electronic keying section for this year. Here is a list of stations who have more than 100 points:

1	SQ9S	205 points
2	PI4NTC	204 points
3	F6JOE	199 points
4	SP7OGP	178 points
5	PA0CMU	171 points
6	PA3EEG	164 points
7	OK2BMA	130 points
8	IK1YRA	128 points

And here is the same list for the mechanic keying section:

1	ON7DQ	183 points
2	PA0SIM	142 points
3	DL1DXL	128 points
