

Results of the NTC QSO Party – April 2023

36 logs this time, with an equal number of participants in both sections. The Mechanical Key section seems to become more popular. 40 meters was very good and most of you moved to 80 meters about 10 minutes before the end. Enno PF5X wins the electronic section again. Our club call PI4NTC wins the mechanical key section. Thanks all for participating! You can find the totals on page 3 and 4.

PI4NTC	28	6	22		56	Junker, Vibroplex and Cootie

English Soapbox:

Gerrit PA3AM: Had fun again, started calling CQ NTC on 20m, only 1 QSO UA6AX, who is the only one for a 3 band in my log! 40m was crowded and lots of Data QRM, very good signals on 80M, but low activity here. 100W barefoot, Sky Wire antenna, Vibroplex Lightning Bug 186892 from 1954. Played CQ and a few S&P. Was fun to meet all NTC members and some NM also, who I invited to join next QP! 22 QSO's is not too much but some NM qso,s were full and long qso's and if you invite new HAMS you have to be polite. Hpe cuagn in CW. 73"

Dutch Soapbox:

Carel, PA0CMU: Bijgaand mijn log van vanavond. Per abuis een uur te vroeg gaan roepen en ik vroeg me al af waarom het zo stil bleef. Toen nog maar een klein uurtje gewacht en koffie gedronken. Toch nog 33 qso's gemaakt vanavond. Tnx en tot de volgende keer!

Enno PF5X: Dat was hem weer. En waar waren de Duitsers nu ze voor een extra punt telden ??? Heb er slechts 2 gewerkt ... Vooral 40m dus, maar er waren toch een paar opmerkelijke geesten die doorhadden dat het op 80m ook prima ging ...
