

## Results of the NTC QSO Party – February 2024

Propagation is changing again and during this QSO party we could use both 40 and 80 meters. On 40 meters signals were loud and working stations closeby was no problem. There were only a few QSO's on 20 meters but Stefan OE8TIR managed to work DP1POL on this band!

Carel PA0CMU made 37 QSO's and is top scorer in the electronic section. Our club station PI4NTC is top scorer with the same number of QSO's in the mechanical section with operator PG4I :-)

Summaries for 2024 are on page 3 and 4. See you in the next party on March 21.

### Electronic Keying

Call	QSO	80m	40m	20m	Score	
DL9BU	13			13	27	
F5IYJ	17		9	8	32	
F6JOE	27		8	21	57	
G4RTJ	6			6	13	
G5VZ	11			11	24	
I5ECW	22		7	17	54

PE0CD	11	3	7	1	18	SK	
PI4NTC	37	15	22		77	Begali Swing Cootie	Top Scorer
SF6W	28	12	16		62	LM Ericsson SK	Third place

### Dutch Soapbox:

Paul PA2PWM: Bedankt weer voor het organiseren! Werk met 35w uit een Icom7300 in een inverted L van ongeveer 20 meter lang. Echte S rapporten zijn wat lastig, vooral op de lage banden... veel te veel noise dus RF-dicht, NR aan etc. 73 Paul

Hannes DJ0SP: Bijgevoegd is het log voor de QNTC. 40m lang CQ-lussen, maar 17 QSOs. Het ging beter op 80m. 16 QSOs De signalen waren zeer goed. Zoals altijd een gezellig feestje. Helaas gaat het 1uur snel voorbij.

### English Soapbox:

Dick SV9RPE: GOOD CONDX WITH PI4NTC WELL OVER S9. HOWEVER, QRT AFTER 20 MINS DUE TO SEVERE THUNDERSTORM. 73 DICK.

Stefan OE8TIR: Great condx this evening and mostly big sigs on 40. The highlight was Felix DP1POL on 20 as the only one on 20. Weak but workable. Category Electronic keyer as usual K3, doublet 2x15m, 100W. 73 de Stefan and CWFE.
