

## Results of the NTC QSO Party – May 2024

Summer propagation is here.. The QSO party is a lot quieter than usual and QSO's on 80 meters are difficult to make. Long distance QSO's are becoming easier, judging from the logs of SV9RPE, UA6AX and WA3AAN. Congrats to Frank PA7F for winning the electronic section and Geo SF6W for winning the mechanical section using a straight key.

If you participate in the Electronic section and mention which paddle you have been using, I will include it in the results. Thanks Carl PA0CMU and Chris ON8VA.

### Dutch Soapbox:

*Michael M0MPM:* m'n antenna was kapot, of de condities waren heel slecht. Ik denk het laatste. Toch nog 11 QSO's :)

*Carel PA0CMU:* Ik heb 24 verbindingen (49 pnt) gemaakt vanavond alles met de nieuwe Bamatech TP-III paddle. Het is wel even wennen aan zo'n klein ding, maar het is Duitse degelijkheid!

*Frank PA7F:* Hier is mijn log van de NTC QSO Party van gisteren. Sectie electronic keying. Grappig hoe de condities iedere keer weer anders zijn, en deze keer in ieder geval niet best. Op 80m pas toen het donker werd verschenen er een paar stations. Op de meegestuurde screen shot van mijn set zie je het segment 3550-3560 ten tijde van mijn QSO met PI4NTC.

### English Soapbox:

*Lothar DL1DXL:* Despite the QRN, I was able to enjoy QSOs with SV9 and UA6.

*Bob GM3ZDH:* Just a few contacts in NTCQP as I had to run people to the airport.
